## Birthday party activities

During the two-hour period, there will be three different activities, which include fishing at the stream with nets, a short hike and a nature craft. You can choose one of the following crafts:

### ♻️ Build a Bug

After an exploration of the bamboo forest and meadow for bugs, insects and spiders, we'll use natural and recycle materials to create our very own bug.

### ♻️ Nature Notebooks

Search the forest and stream for artistic inspiration as we paint with watercolors, do leaf and tree rubbings, collect natural materials and make a beautiful scrapbook to remember our day in nature.

### ♻️ Terrarium Building

Recreate the splendor of Makiki Valley in miniature as we collect plants, leaves, rocks, moss and worms to build your own terrarium. *Note: If you would like us to provide the jars, there will be an additional \$3.50 per jar per child fee.*
