THEMES BY GRADE LEVELS

We have integrated Next Generation Science Standards in all programs. For more info on curriculum, contact Taylor, Program Manger at Taylor@HawaiiNatureCenter.org

PRESCHOOL: Children of the Land 9:30-11:30 am

Get acquainted with nature while learning about the wonders of water, explore mountain trails and special homes of animals that live in the forest.

KINDERGARTEN: Introduction to Nature 9 am-12 pm

Experience a sensory exploration of living and non-living parts of nature while learning to appreciate the outdoors. Hike through the forest, learn how soil is created and explore a mini-stream ecosystem

GRADE 1: Introduction to Plants, Animals & Healthy Habitats 9 am-12:30 pm

Explore streams and forests of 'Īao Valley while learning about survival, the food chain and stream life. Demonstrate ways to help keep our habitats healthy.

GRADE 2: Cycles in Nature 9 am-12:30 pm

Examine the importance of five main cycles in nature (plant and animal life cycles; nutrient, gas and water cycles) while hiking, fishing at the stream and hunting for decomposers. See how cycles are interconnected and how we play a part.

GRADE 3: Discovering Wetlands 9 am-12:30 pm

Head to U.S Fish and Wildlife Keālia Pond National Wildlife Refuge and learn about the importance of wetlands and how adaptation, interdependence and dispersal play key roles in this ecosystem. Discover the threats to endangered Hawaiian wetland birds and how conservation efforts are enabling their survival.

GRADES 4, 5, & 6: Forest Encounters 9 am-12:30 pm

Explore the forest of 'Īao Valley while learning about geological, biological and human-caused changes. Learn about changes that have local and global impacts and suggest ways for creating a better future for Hawai'i.
